

## **Building on Brownfield sites**

The buildings of the Lorry I. Lokey City Campus are all brownfield sites:

- ❖ The Dylan Tauber building was a warehouse from the British Mandate that was transformed into a classes for the Carmel Academic Center in 2008, which was closed in 2016. In 2018 the University of Haifa purchased the building and remodeled it. There are plans to add student housing and recreational areas.

- ❖ The building in Palmer street was vacant for a number of years and was recently purchased by the University of Haifa and renovations are planned.

## קמפוס הנמל פלמר 4

## הדמיה לתוספת קומות

- ❖ The building on Ha-Nammal street 63-67 was used by the IRS. Around 2010 was purchased by the University and renovated for classes.
